Service Interruptions:

- None reported

Remote/Community Isolations:

Community Isolation, Newman, Stanislaus County [\(Final\)](#)

On 10/11/18 at 1342 hours, CA 9-1-1 Branch notified the California State Warning Center (CSWC) that customers served out of the Newman Central Office in Stanislaus County are unable to make phone calls to numbers outside of the office due to an intermittent network event. Per CA 9-1-1 Branch:

- The outage began on 10/11/18 at 0901 hours.
- 1,927 lines are affected.
- Wireless service was not impacted.
- Stanislaus Regional 9-1-1 dispatches for this area and was been advised of this outage.
- The outage was caused by a fiber optic issue affecting phone numbers with an 862 prefix.
- As of 10/12/18 at 0905 hours, AT&T reported that defective equipment at the central office was replaced and the network has been stable (no bouncing) since then. The last bounce occurred on 10/11/18 at 1655 hours.
- 9-1-1 test calls were made to Stanislaus County 9-1-1.
- The ticket for the isolation has been closed.

WEATHER OF CONCERN

Weather of Concern

Northern California

- Dry weather will continue for Northern California with mild to warm temperatures in the afternoon. During the night, areas west of the Cascades will see temperatures drop close or just below freezing and areas east of the Cascades will see milder temperatures.
- Breezy east to northeast winds can be expected across higher elevations this weekend.
- For NE California, a brush-by cold front early Sunday will bring gusty northeast winds and a recharge of cold air. Widespread hard freezes are looking likely for Monday and Tuesday mornings.

Southern California

- Wetting rains last night and today will alleviate the fire weather concerns, albeit briefly, at the beginning of the Santa Ana event which begins on Monday. Scattered showers today will end tonight. On Sunday the fuels begin to dry out, but the really strong offshore winds and dry air won't arrive until Monday. That's when critical fire weather conditions are most likely.

Weather Advisories, Watches, and Warnings currently active in California:

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

- High risk due to gusty N-NE/Offshore winds and low relative humidity (RH) today through Monday west slopes of the Cascade-Sierra Range, Sacramento Valley & Foothills, Mid Coast-Mendocino and NW Mtns
- High risk due to gusty NE/Offshore winds and low RH Sunday and Monday North Coast, Bay Marine and Diablo-Santa Cruz Mtns
- Persistent blocking ridge pattern will remain the next 7-10 days with a potent inside slider system tomorrow and Monday.
- Gusty N-NE/Offshore winds will continue today and last through Monday. Strongest night/morning gusts 40-50 mph across the west slopes of the Cascade-Sierra Range, Diablo-Santa Cruz Mtns and higher ridges found within the Coast Range between Del Norte and Napa counties. Gusts 25-35 mph Sacramento Valley, North Coast and Bay Marine. Strongest wind gusts tonight through Sunday night.
- Less wind Tue through Thu although continued N-NE-E directions with some overnight gustier breezes within the Sac Vly and west slopes of the Cascade-Sierra Range.
- Dry to very dry airmass developing this weekend and lasting well into next week. This includes single digit and teen daytime readings and poor to very poor recovery during the overnights.
- Daytime temperatures will generally range between 5-15 degrees above normal next 7-10 days.
- Precipitation not likely for the next 7-10 days.

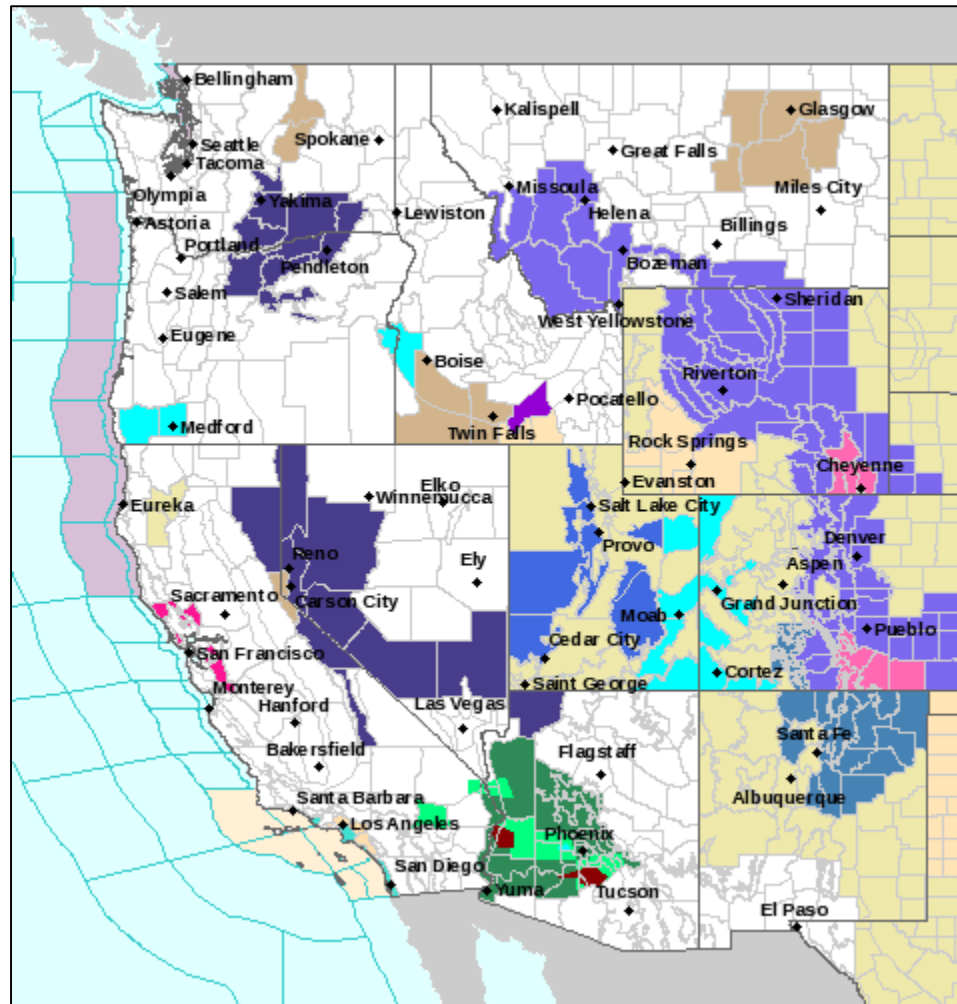

SOUTHERN CALIFORNIA

An area of low pressure is currently pushing inland near the California/Baja border. This low will open and move off to the east tonight. Another low will form over Arizona Monday as a trough dropping down the Great Basin cuts off from the main flow. This low will sit and spin over Arizona through the end of next week. Strong high pressure over the Pacific Ocean will approach the West Coast Monday and Tuesday and then it will weaken Wednesday through the end of next week.

- Scattered showers and thunderstorms will continue to move across Southern California through this afternoon, with up to an additional half inch of rain possible.
- Maximum temperatures will be near to a little below normal through Sunday, with mid 50s to mid 60s across the mountains and 70s to low 80s in the valleys.
- Northeast winds of 20 to 40 mph with gusts to 60 mph will surface across the mountains and below the canyons and passes of Southern California Sunday night through Tuesday morning.
- Winds will decrease and become less widespread Tuesday afternoon through Wednesday morning and then become light by Wednesday afternoon.
- Minimum humidity will drop into the single digits and teens Monday and Tuesday and then increase to 10% to 25% Wednesday through the end of next week.
- Temperatures will warm to around 5 degrees above normal next week, with 60s to low 70s across the mountains and upper 70s and 80s in the valleys.

OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Ongoing Cal OES Law Missions

- **2018-LAW-52239, 10/11/18, 1555 hours:** Plumas County requested 3 Human Remains Detection (HRD) dog teams for a search in the Lake Davis area. The search is scheduled for Saturday, 10/13/18. The Cal OES Canine Coordinator has secured the requested resources. **Mission Ongoing.**
- **2018-LAW-52233, 10/11/18, 1448 hours:** Butte County requested 40 Type I / II SAR volunteers to search an area near GPS 39.61628° by -121.14275°, which plots to the Golden Trout Crossing area of Butte County. Butte County is attempting to locate a 40 year old male last seen on 10/10/18 at 1500 hours while panning for gold at the bottom of a rugged canyon. Fourteen counties were contacted for resources. Search is scheduled for 10/12/18 at 0700 hours. **Update 10/13/18:** [Search continues with 30 Type I / II SAR volunteers and 3 search dog teams.](#) **Mission Ongoing.**
- **2018-LAW-52219, 10/11/18, 1158 hours:** Santa Cruz County Sheriff's Office(SCSO) requesting Los Angeles County Sheriff's Department (LASD) Mine/Underground team to assist in searching for a victim involved in an on-going homicide investigation. Operational date and time to-be-determined between SCSO and LASD if mission is accepted. At 1229 hours, SCSO's mission request was given to LASD Emergency Operations Bureau, who is coordinating a response. **Mission Ongoing.**
- **2018-LAW-52025, 09/30/18, 1400 hours:** Port of San Diego requested assistance from the Cal OES Law Enforcement Branch/Cyber Security Integration Center to mitigate a technology attack to their server. Cal OES deployed a Cal-CSIC team comprised of Cal-CSIC, California Military Department (CMD), and California Department of Technology (CDT) staff. Update as of 10/04/18: Cal-CSIC has three team members at Port of San Diego assisting with forensics and recommending best practices as the port works to restore IT services. The team consists of one each cyber analyst from Cal OES, CMD, and CDT. The mission is expected to extend through 10/12/18. **Mission Ongoing.**
- **2018-LAW-50684, Reopened 10/11/18, 1430 hours:** Yolo County requested a prior mission be reopened to allow for additional searches. Yolo County has been using human remains detection (HRD) dog teams to search for a deceased individual in the Woodland area. **Mission Ongoing.**

Closed Cal OES Law Missions

- **2018-LAW-52263, 10/12/18, 1150 hours:** [IERCC reported a Delorme In Reach activation at 36° 12' 08" by -118° 27' 32", which plots to Tulare County near Camp Nelson. The user reported a medical emergency and requested immediate assistance. Tulare Sheriff and Tulare Fire responded. When personnel arrived on scene they determined that the injured subject was deceased. A CHP helicopter air lifted the decedent out to ground transportation.](#) **Mission Closed.**
- **2018-LAW-52247, 10/11/18, 2247 hours:** IERCC reported a Delorme SPOT activation at 36.791028° by -118.673944, which plots to Sentinel Campground, Cedar Grove area of Kings Canyon National Park in Fresno County. No additional details were received from the device and the device user did not respond to three messages from IERCC. Information relayed to Kings Canyon National Park Rangers. **Update 10/12/18:** [The user of the device contacted both IERCC and the Park Ranger to report that the activation was accidental.](#) **Mission Closed.**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-Cal OES-51904:** 2018 July Statewide Wildfires – CNG to provide 55 SHOUT NANO devices, 1 laptop computer, transportation, and required training in support of debris removal operations in the Carr Fire burn area. (On Scene)
- **2018-SREOC-51612:** 2018 July Statewide Wildfires - Holy Fire and Cranston Fire Burn Scars, Riverside County - Advanced Technical Assistance to address the imminent threat and high risk of mud and debris flows the Riverside County Operational Area will experience from the Cranston and Holy fire burn area. (On Scene)
- **2018-IREOC-49869:** 2018 July Statewide Wildfires - Debris Management Task Force for Shasta County. (Coordinating)
- **2018-IREOC-48515:** 2018-07-05-Klamathon Wildfire - Air monitors in Siskiyou County due to the Klamathon Fire. (On Scene)
- **2018-CREOC-48046:** 2018-06-23-Lake-Wildland Fire - DTSC to clear debris from Pawnee Fire. (Coordinating)
- **2018-IREOC-45244:** Daily Operations - Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene - Long-term assignment)
- **2017-SOC-44098:** 2017 December Wildfires - CalRecycle Debris Management Team in Ventura County. (On Scene)
- **2017-Inland-42559:** Daily Operations - Weather station installed to gather real time rainfall data by Air Resources Control Board (ARB). Mission extended through 05/30/19. (On Scene)

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
